

COOKIES POLICY OF WITTIX, UAB

Valid till 30 January 2023

COOKIES POLICY

To ensure that your visit to our website is smooth, reliable and as useful to you as possible, Wittix uses cookies and similar technologies, such as tags/beacons and javascripts ("cookies"), to make our website relevant to your interests and needs.

WHAT ARE COOKIES?

Cookies are small text files which are transferred from our website, product or service and stored on your computer's hard drive. They are widely used in order to make websites work, or work more efficiently, as well as to provide general usage information to the owners of the site.

Your browser sends these cookies back to our website every time you revisit it, so it can recognize your computer or mobile device and personalize and improve your browsing experience.

WHAT TYPE OF COOKIES DO WE USE?

The cookies we use fall into 3 categories described below:

STRICTLY ESSENTIAL AND FUNCTIONAL COOKIES:

Essential cookies are necessary to help you access and move around our site and use all its features. We also use functional cookies, for example to remember your language preferences to save you the trouble of having to change every time you enter our website. Without these cookies, our website would not work properly, and you would not be able to use certain important features.

ANALYTICS COOKIES:

We use cookies to help us understand how visitors arrived at our website, how long they use it for and how we can improve their experience. This type of "analytics" cookies can provide us with anonymous information to help us understand which parts of our website interest our visitors and whether they experience any errors. We use these cookies to test different designs and features for our sites and we also use them to help us monitor how our visitors reach our sites.

To place these cookies, we use Google Analytics and we have set our Google Analytics to protect your privacy to the maximum extent. This means we have concluded a data processing agreement with Google to protect your data. We have also made sure that the last octet of your IP-address is invisible and have turned off the setting which allows sharing data with Google. We are also not using any other Google Analytics related cookie services which are offered by Google.

ADVERTISING, MARKETING AND SOCIAL MEDIA COOKIES (TARGETING COOKIES):

We only place advertising, marketing and social media cookies if you have given us your permission to do this.

Advertisement and marketing cookies collect information about your browsing habits in order to make our content and advertising as relevant to you and your interests as possible. These cookies are also used to help us measure the effectiveness of our advertising campaigns by tracking the number of clicks. The cookies are usually placed by third party advertising networks. They remember the websites you visit and use this information to give you access to interesting and exciting content on our website and to show you more personalized adverts when you visit other websites. These cookies also help improve your browsing experience, for example by helping to prevent the same advertisement from continuously reappearing to you.

Additionally, social media platforms such as Facebook and Twitter can use cookies to see if you are logged in and allow you to "like" content or forward it to your friends. Depending on your settings, these third parties may use your information for their own purposes, such as advertising. If you would like to know more how these social media platforms use data, please refer to the privacy notices of these platforms.

WITHDRAWING YOUR CONSENT

Managing your cookie settings and deleting cookies

As explained above, we only place advertising and targeting cookies (including tracking cookies) if you have given us your consent for doing this. If you have given us your consent but would like the cookies that we have placed to be removed, you can do this by deleting them via your

browser. Search for "cookies" under your web browser's "Help menu" or visit this website for more information on how to do this.

You can also enable or disable cookies via your browsing settings. For example, you can have the browser notify you when you receive a new cookie, delete individual cookies or delete all cookies. Most advertising networks offer you a way to opt out of advertising cookies. See this page and this page as well pages for useful information on how to do this.

Please note that, if you choose to delete Wittix cookies, your access to some functionality and areas of our website may be degraded or restricted.

Further information about our use of data

You can find more information about the way we handle personal data in our [Privacy Policy](#).

QUESTIONS, COMMENTS OR IN NEED OF HELP?
